

Research Paper Template

Use this template to organize your research and structure your paper. The sections you need may vary depending on your research project or instructor's requirements.

Research Paper Title:

Research Question:

1. Introduction & Background

Introduce your topic, provide relevant background information, and explain why the topic is important. Include relevant information from previous research that helps readers understand your topic.

Main points to include:

- ---
- ---
- ---
- ---
- ---

2. Hypothesis

State what you expect to find based on your research question and the information you have gathered.

My Hypothesis:

3. Research Method & Data

Explain how you investigated your research question and what information or data you used.

Research Method:

Data Sources:

What I analyzed or compared:

4. Findings & Analysis

Present the important results of your research. Include relevant evidence, statistics, graphs, or tables when appropriate, and explain what your findings show.

Main Findings:

- ---
- ---
- ---
- ---
- ---

What do these findings mean?

5. Conclusion & Limitations

Summarize your findings and explain how they relate to your original research question and hypothesis.

Answer to my research question:

Was my hypothesis supported by the evidence?

Limitations of my research:

6. References

List all sources used in your research using the required citation style. Remember to also use in-text citations throughout your paper when using information, ideas, statistics, or data from other sources.
